Seven Iron: Doubling Curve Strength

Two Ordered Conditions · 9,996/10,000 Common Supported Indices Across All Six Populations · Shared Axes and Density Scale

Red + = Matched Target · Solid/Dashed/Dotted = 50/80/95% Binned Empirical HDR · Equal Metre Scaling

Blue = Probability Density (m⁻²), Shared Scale · Carry Only · Model-Conditional Simulation; Not Mean Confidence Intervals or Calibrated Player Precision.
